Founded in 2002 by Erik Nielsen

Through sustainable production, we
activate the power of fermented herbs
and bacteria to support an easy and
healthy everyday from the inside out

We are a Danish company with a focus on health and the environment. At Biossa, we are fascinated by nature and the solutions it offers. We believe that we can live well and far more sustainably by using nature's own inventions, and we are passionate about these solutions because we believe it is in the best interests of humans, animals and the earth. We specialize in organic products based on microorganisms, providing a wide range of sustainable solutions for people, animals, soil and plants. These microorganisms constitute some of the most basic functions of life, and those properties are utilized in our products.

We use organic raw materials and natural manufacturing methods as much as possible, and hope that it will benefit you and everyone else.

Biosa Global

**Using nature's solutions to produce
sustainable, ecological products**

**Quality and sustainability are at the heart of our production.
All our raw materials are organic and thoroughly tested - and
we use recycled materials for all our packaging as far as
possible"**

- Eil Nielsen, CEO

Biosa Global ApS is a Danish family business based in Frederiksværk, where we create products for people, animals, plants and soil. Our products are sold in more than 20 countries across the globe.

Biosa was founded in 2002 by Erik Nielsen, and since its inception, ecology and sustainability have played a crucial role in all aspects of the company and its activities.

Our products are produced through a gentle fermentation process. Fermentation is one of the oldest ways to preserve products, but the process also has a number of other benefits.

Read more about our production process [here](#).

Biosa's Founder

A life-long search for sustainable solutions

About The Founder

Erik Nielsen was an organic farmer whose search for sustainable technologies in organic agriculture lead him on the trail of the inconspicuous, but indispensable microorganisms.

In 2002 he founded Biosa Danmark and began to share his findings with the world at large, however his passion for working with the fermentation of microorganisms started in 1994 when he realized the vast array of useful properties, and became convinced of the positive effects.

"I could see that the microorganisms gave new life in an effective and sustainable way, so I decided to investigate and research them. The goal was to develop products with microorganisms, which were both organic, effective and sustainable."

Erik's passion for microorganisms lives on in Eli Nielsen, Erik's oldest son and the current CEO of Biosa ApS.

"It fascinated me, that the growth and strength of plants could be increased considerably by adding microorganisms to the soil"

- Erik Nielsen, Founder

About Vita Biosa

Vita Biosa is an organic fermented drink with 8 active cultures of bifido- and lactic acid bacteria, organic acids and extracts from 19 herbs.

With Vita Biosa you can have your daily dose of natural lactic acid bacteria. With 3 different sizes and 4 different variants we've made it even easier to find the right product that suits your needs.

Vita Biosa Original

Our global bestseller with a pure and full-bodied taste of herbs

Ingredients

Water, organic molasses, extract from 19 organic herbs 0.5% (aniseed, fennel seed, liquorice root, angelica root, basil, camomile, chervil, dill, elderflower, fenugreek seed, ginger, juniper berry, nettle, oregano, parsley, peppermint, rosemary, sage, thyme), 8 lactic acid bacteria cultures (Bif. lactis, Bif. longum, Lb. acidophilus, Lb. casei, Lb. rhamnosus, Lb. salivarius, Lc. lactis, St. thermophilus)

Vita Biosa Original can be found in the following sizes:

500 ml

1000 ml

3 litre bag in box

Vita Biosa Berry can be found in the following sizes:

500 ml

1000 ml

3 litre bag in box

Vita Biosa Berry

Our sweetened variant with organic juice from aronia, blackcurrants and blueberries

Ingredients

Water, organic sweetener Erythritol, organic molasses, organic concentrated blackcurrant juice 0.8%, organic concentrated aronia juice 0.4%, organic blueberry juice 0.2%, extract from 19 organic herbs 0.22% (liquorice root, aniseed, fennel seed, angelica root, basil, camomile, chervil, dill, elderflower, fenugreek seed, ginger, juniper berry, nettle, oregano, parsley, peppermint, rosemary, sage, thyme), 8 lactic acid bacteria cultures (Bif. lactis, Bif. longum, Lb. acidophilus, Lb. casei, Lb. rhamnosus, Lb. salivarius, Lc. lactis, St. thermophilus)

Vita Biosa Contains

Lactic acid bacteria

8 active cultures of bifido- and lactic acid bacteria

Organic herbs

Extract from 19 different organic herbs

Organic acids

Short-chain fatty acids such as lactic acid and acetic acid

Vita Biosa is also
Sugar-free • Dairy-free • Gluten-free
Free from added preservatives

Vita Biosa
Ginger

Our fresh alternative with organic cold-pressed ginger juice

Ingredients

Water, organic molasses, organic cold-pressed ginger juice 0.8%, extract from 19 organic herbs 0.5% (aniseed, fennel seed, liquorice root, angelica root, basil, camomile, chervil, dill, elderflower, fenugreek seed, ginger, juniper berry, nettle, oregano, parsley, peppermint, rosemary, sage, thyme), 8 lactic acid bacteria cultures (Bif. lactis, Bif. longum, Lb. acidophilus, Lb. casei, Lb. rhamnosus, Lb. salivarius, Lc. lactis, St. thermophilus)

Vita Biosa Ginger can be found in the following sizes:

500 ml

1000 ml

3 litre bag in box

Vita Biosa is also
Sugar-free • Dairy-free • Gluten-free
Free from added preservatives

Vita Biosa
Rosehip

Our good old classic with organic rosehip

Ingredients

Water, organic molasses, organic rosehip purée 1.4%, extract from 19 organic herbs 0.13% (ginger, aniseed, fennel seed, liquorice root, angelica root, basil, camomile, chervil, dill, elderflower, fenugreek seed, juniper berry, nettle, oregano, parsley, peppermint, rosemary, sage, thyme), 8 lactic acid bacteria cultures (Bif. lactis, Bif. longum, Lb. acidophilus, Lb. casei, Lb. rhamnosus, Lb. salivarius, Lc. lactis, St. thermophilus)

Vita Biosa Rosehip can be found in the following sizes:

500 ml

3 liter bag in box

Benefits of using Animal Biosa

Animal Biosa can be used for all animals in combination with any feed (added immediately before feeding).

Facilitates feed-change

when transitioning to
grass and roughage

Stimulates appetite

with a fresh herbal
scent and sour taste

Supports digestion

stabilizing gut microbiota
and improves feed
conversion

PETS

The complex blend of fermented herbs and short-chain fatty acids restores and maintains normal bowel function. The product can be used daily, minimum ½-1 ml per. kg body weight. Animal Biosa can also be used wherever odor problems occur, primarily in connection with pets, but also in mold attacks in wet and basement rooms.

Spray (with a spray bottle, for example) undiluted or diluted with water (1: 1) directly on the animal, the source of the odor (eg catnip) and in the animal's immediate environment. Avoid hitting the eyes. The product can be used indefinitely and does not require the use of a mask, gloves, etc. It is harmless and harmless to humans and pets.

HORSE

A naturally fermented supplementary feed that affects the digestive tract and intestinal microorganisms. It is easy to use and completely free of sugar and doping substances.

The complex blend of fermented herbs and short-chain fatty acids restores and maintains normal bowel function. The product can be used daily, 20-30 ml per. 100 kg horse.

BEE'S

A natural product with lactic acid, acetic acid and extract of organic herbs for use in hives. Can be used in combination with other substances (for example, oxalic acid) if the combs are particularly infested. The product can replace the smoker by spraying hives and runways, for hygienisation for honeycombs and as a biological disinfectant. The product is natural and not harmful to the health of either bees or breeder. No extra safety equipment is required beyond the usual. Animal Biosa contributes to a natural and stress-free care of the bees.

LIVE STOCK

Microbially fermented herbs for a balanced microbiota and improved feed utilization. The product can be used daily, minimum 1-1½ ml per. 5 kg body weight. Can be used with advantage as a teat spray and wound treatment (diluted with water 1: 1).

Animal Biosa also ensures efficient decomposition of manure to prevent odor emission and ammonia volatilization. Animal Biosa will thus improve the stable environment.

Terra Biosa

For organic improvement of plants and soil

About Terra Biosa

The perfect solution for soil improvement, Terra Biosa uses living microorganisms to increase the decomposition of organic material and create an improved growth environment for crops.

Terra Biosa is a liquid formula based on a mixture of organic herbs, lactic acid bacteria and other naturally occurring microorganisms.

Terra Biosa increases the population of microorganisms in the soil and therefore the activity and rate of which the organic material is being composted and nutrients released. Tests have shown that application of the microorganisms that are found in Terra Biosa contributes to a greater microbial diversity and biological activity in the soil, improved nutrient supply as well as better soil structure and root growth.

Benefits of using Terra Biosa

Terra Biosa is suitable for both garden and greenhouse horticulture and agriculture (applied in the evening or in

Increases

the biological activity of the soil & decomposition of organic matter

Improves

the nutrient supply, the growing conditions & the soil structure

Enlarges

root system & water capacity

When and how to use Terra Biosa

Terra Biosa can be applied directly into the soil and on crops in all stages of growth.

It is best to dispense Terra Biosa onto soil from Spring to Autumn - at times when there is humidity in the soil. From sowing to 2 weeks after sprouting, in strong concentrations Terra Biosa can decrease germination, and should not be spread during the winter season.

Terra Biosa is produced by Biosa ApS, which is an authorized producer of organic food.

All of the ingredients in Terra Biosa are approved for use in food products

Our customers say:

**"Beautiful, large, tasty vegetables and berries,
100% naturally."**

- Bjarne Andersen, kitchen & garden enthusiast

Made in Denmark

Terra Biosa is produced by Biosa ApS, an authorized manufacturer of organic foods. The ingredients in Terra Biosa are all approved for use in food products.

Terra Biosa 3L

For soil improvement, composting, seed germination, on the lawn, for fruit trees, berry bushes and plants, in the kitchen garden, flower beds and greenhouses. It is recommended to water with Terra Biosa in wet and humid weather or in the evening.

Terra Biosa improves the microbial composition of the soil around the plants, which increases nutrient uptake, provides greater root system and yield of fruits and vegetables. The complex blend of fermented herbs and short-chain fatty acids restores and maintains normal bowel function. The product can be used daily, 20-30 ml per. 100 kg horse.

Terra Biosa 10L

A natural product with lactic acid, acetic acid and extract of organic herbs for use in hives. Can be used in combination with other substances (for example, oxalic acid) if the combs are particularly infested. The product can replace the smoker by spraying hives and runways, for hygienisation for honeycombs and as a biological disinfectant. The product is natural and not harmful to the health of either bees or breeder. No extra safety equipment is required beyond the usual. Animal Biosa contributes to a natural and stress-free care of the bees.
